

There will be two parts to our Oct. Assessment. There will be a question on the comparative (all 3 texts) for the exam and another class will be devoted to writing a composition for Paper 1.

So, our revision list looks like this:

1. Students are asked to revise the strands of the Cultural Context for all three texts of the comparative. They must practise planning, producing and editing Cultural Context essays in the allotted exam time.
2. They revise the aspects of each of the five types of language and practise planning, producing and editing their own essays in the one hour allotted exam time.
